# MITSUBISHI ELECTRIC Inverter Sales and Service

## Parts Change and Circuit Board Revision for the FR-D700 Series Inverters due to Production Discontinuation of Circuit Board Parts

Thank you for your continued patronage of Mitsubishi Electric drive control products. Some parts mounted on the circuit board will be changed for the FR-D700 series general-purpose inverter.

### 1. Products Affected

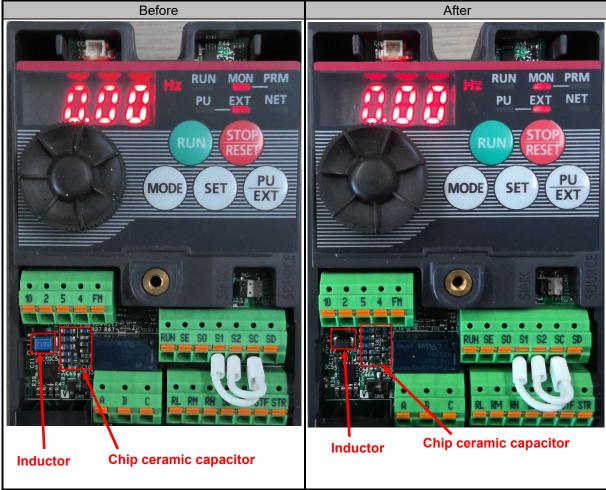

FR-D700 series inverters

### 2. Details of the Change

The appearance (size only) of the parts with the same specifications on the circuit board of the target model will be changed.

The change does not affect the quality, performance, or specifications of the products.

### • The inductor and the chip ceramic capacitor will be changed.

Date of issue	November 2024	Title	Parts Change and Circuit Board Revision for the FR-D700 Series Inverters due to Production Discontinuation of Circuit Board Parts	Mitsubishi Electric Corp., Nagoya Works 5-1-14 Yada-minami, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line
---------------------	---------------	-------	---	---

#### 3. Date of Change

The change will be sequentially applied to the January 2025 production or later. (The schedule may vary depending on the production condition.)

### 4. Product Identification

The SERIAL (determined by date of production) can be checked on the rating plate or packaging plate.

SERIAL example on rating plate	SERIAL example on packaging plate
□ <u>5 1</u> <u>oooooo</u> Symbol Year Month Control number	□ <u>5</u> <u>1</u> <u></u> Symbol Year Month Control number
SERIAL	SERIAL

The SERIAL consists of one symbol, two characters indicating the production year and month, and six characters indicating the control number. The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).
