Model Number Change of Alkaline Batteries for Operation Check of the General-Purpose Inverter Option FR-PU07BB Parameter Unit

Thank you for your continued patronage of Mitsubishi Electric drive control products.

The appearance of the alkaline batteries for operation check included with the FR-PU07BB parameter unit will be changed due to the model number change.

1. Products Affected

FR-PU07BB

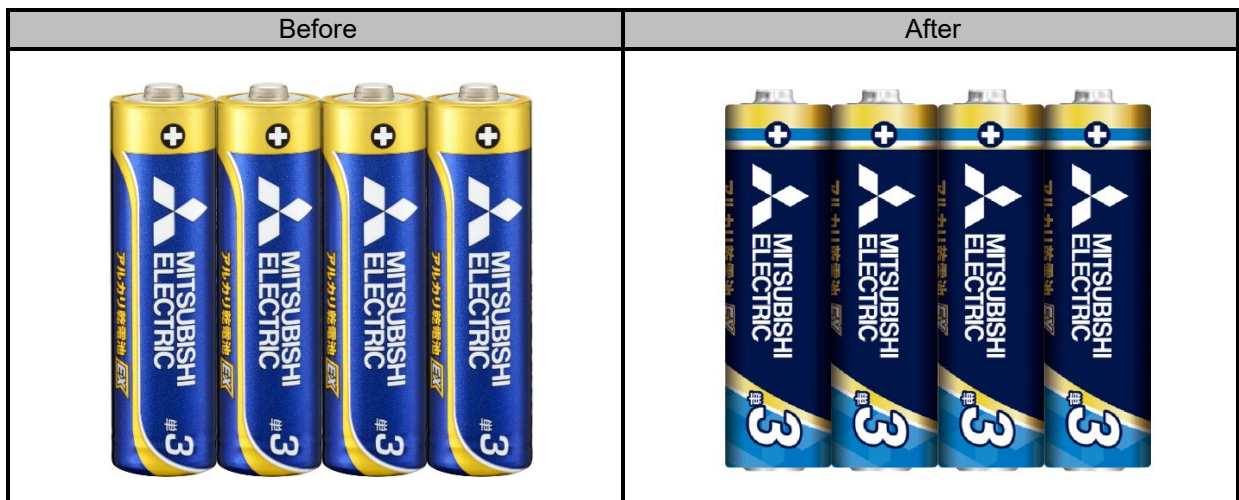

2. Details of Change

The model number of the alkaline batteries for operation check included with the product will be changed.

Conventional model number: LR6EXD/4S

New model number: LR6EXR/4S

Along with the model number change, the appearance of the alkaline batteries will be changed. The change does not affect the quality, performance, or specifications of the products.

3. Date of Change

The change will be sequentially applied to products manufactured in August 2024 or later.

4. Product Identification

The products can be identified visually.
