

Compliance with EU Battery Regulations

■Date of Issue

August 2024

■Relevant Models

MELQIC series

Thank you for your continued support of Mitsubishi Electric data logging analyzers, MELQIC series.

The battery products without the CE mark will be banned from distribution and sale in the European market after August 18, 2024 by the EU Battery Regulations.

This technical bulletin informs you of the change in the MELQIC series batteries.

1 RELEVANT MODELS

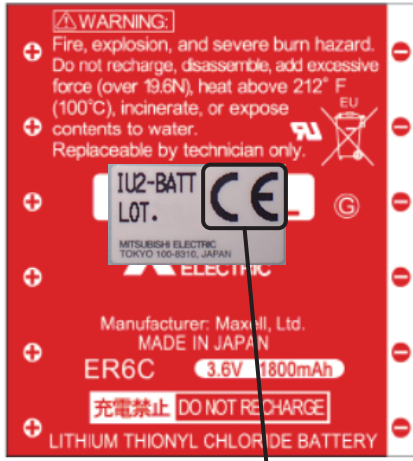

Product	Model
Battery	IU2-BATT
	FX3U-32BL*1

*1 For the change details and changeover period on the FX3U-32BL, refer to the following technical bulletin.

 Compliance with EU Battery Regulations (FA-A-0436)

2 DETAILS ON THE CHANGE

To comply with the EU Battery Regulations, the CE mark will be added on the target batteries.

Before change	After change
 <p>The image shows the battery label before the change. It contains the following text: WARNING: Fire, explosion, and severe burn hazard. Do not recharge, disassemble, add excessive force (over 19.6N), heat above 212° F (100°C), incinerate, or expose contents to water. Replaceable by technician only. It also includes the model number IU2-BATT, LOT., manufacturer Maxell, Ltd. MADE IN JAPAN, and specifications ER6C 3.6V 1800mAh. There is a 'G' mark and a 'DO NOT RECHARGE' warning in Japanese and English. The CE mark is absent.</p>	 <p>The image shows the battery label after the change. It is identical to the 'Before change' label but includes a CE mark next to the 'LOT.' field. A line points to the CE mark with the text 'Added CE mark'.</p>

3 CHANGEOVER PERIOD

The change has been applied to the products manufactured from June 2024 onwards.

Note that, depending on stock status, both the old and new products may be distributed in the market around that time.
