

Subject: Discontinuation of production of High-performance teaching box

**Applicable to: AS Series, FR Series, F Series, SQ Series, SD Series
(Controller CR800/CR750/CR751/CRnQ-700/CRnD-700 series)**

Thank you for your continued support of Mitsubishi industrial robot “MELFA”.
Production of the following “R56TB/R57TB” will be discontinued

1. Models to be discontinued

R56TB/R56TB-15/-S**
R57TB/R57TB-15/-S**

2. Schedule

Order acceptance: Through July 30,2023
Production discontinuation: September 31,2023

3. Reasons for discontinuing production

Production of this product will be discontinued due to the discontinuation of the CPU used in the product and the end of the OS support period.

4. Repair acceptance

Repair acceptance: Through September 31,2030
(For 7years after production discontinuation)

* Even during the maintenance period, we may have to decline your request as soon as we run out of stock of electronic parts, etc. Please consider upgrading to a successor model.
Please consider upgrading to a successor model.

5. Alternative Models

R86TB
*For details, please refer to the R86TB catalog or contact your local Mitsubishi Electric office.

6. Precautions for replacement

The alternative model has some differences in cable specifications from the current model.
Please check the table below for details.
